DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 1-16 and 22-26 in the reply filed on May 30, 2006 is acknowledged. The traversal is on the ground(s) that the search would present no serious burden on the Patent Office. This is not found persuasive because the search for Group I is not the same as or required for the invention of Group II. Hence a burden on the Patent Office does exist.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-16 and 22-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Palermo 6,139,510.

Palermo teaches a medical guidewire comprising an elongate wire, an etched hydrocarbonaceous surface, wherein the hydrocarbon can be a fluoropolymer and a lubricious coating adhered thereto, as required by claims 1, 3, 5, 8-15, 22-23, and 25. The fluoropolymer is of the type contemplated by applicants and the lubricious coating can be polyvinylpyrrolidone or a copolymer thereof, per claims 2, 6-7, and 26. See abstract, column 12, line 60 through column 13 and line 30, and Examples. In addition, Palermo teaches that indicia can be included, per claim 4 and that the lubricious coating

Art Unit: 1774

can be a therapeutic coating, as required by claims 16 and 24. See column 5, lines 16 and column 13, lines 44-65.

Therefore, the teachings of Palermo anticipate the invention as claimed in present claims 1-16 and 22-26.

No claims are allowed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
